

## Admin Routing: Spring 2023

### Purpose:

This is the administrative and core layer infrastructure layout to the March 2023 lab.

### Part 1:

IP addressing schemes for all networks

- Area 0: 192.168.0.0 - 7 /29
- Area 1: 192.168.1.0 - 63 /26
- Area 2: 192.168.1.0 - 63 /26
- Area 3: 192.168.1.0 - 63 /26
- Area 4: 192.168.1.0 - 63 /26

- ISP: 209.0.0.0 - 3 /30
- DNS: 12.12.12.0 /24

## **Part 2:**

### ISP Router configurations

- Assign IP addresses to the interfaces on the router
  - `ISP_Rtr(config)# interface g0/0/1`
  - `ISP_Rtr(config-if)# ip address 12.12.12.1 255.255.255.0`
  - `ISP_Rtr(config-if)# no shutdown`
  - `ISP_Rtr(config-if)# exit`
  - `ISP_Rtr(config)# interface g0/0/0`
  - `ISP_Rtr(config-if)# ip address 209.0.0.2 255.255.255.252`
  - `ISP_Rtr(config-if)# no shutdown`
  - `ISP_Rtr(config-if)# end`
  - `ISP_Rtr# show ip interface brief`
- Next, we will set a default route.
  - `ISP_Rtr# configure terminal`
  - `ISP_Rtr(config)# ip route 0.0.0.0 0.0.0.0 209.0.0.1`
- Be sure to check that the routing table is up to date
  - `ISP_Rtr(config)#exit`
  - `ISP_Rtr#show ip route`

## **Part 3:**

### TAMU Core router configurations

- Assign IP addresses to the interfaces on the router
  - `TAMU_Core_Rtr# configure terminal`
  - `TAMU_Core_Rtr(config)# interface g0/0/0`
